COPYRIGHT 1910 BY ELSIE McFATE

English Delphiniums growing at Hillside Hardy Flower Gardens

Notes and Terms

WE DESIRE to call attention to the fact that all of the following plants are growing in our gardens. The merits of each variety are thoroughly tested before it is offered for sale.

We endeavor to grow only hardy perennials and other plants adapted to easy methods of cultivation, and which will yield an abundance of blossoms without special skill on the part of the grower. Those requiring unusual conditions are so marked. All hardy plants are benefited by a slight protection during winter. We offer only strong plants.

We take pleasure in recommending our flower seeds, which we guarantee absolutely fresh and true to name.

Payment. Cash on delivery. Persons unknown to us will please send reference, in order to avoid delay.

Guarantee. All plants are packed in good healthy condition, but we are not responsible for them after they are beyond our control. All plants are guaranteed true to name.

Packing Free of Charge. Goods are delivered to Wells-Fargo or Adams Express Company at East Pittsburgh, Pa., and travel at purchaser's risk and expense. When requested, we send plants by mail, if postage accompanies the order.

Remittances may be made by post-office money order on Turtle Creek, Pa., or by check to
